This bright, Mediterranean villa with four en-suite bedrooms is located in one of the best areas of Javea with spectacular views of the waterfront. The Mediterranean-style house is fully equipped with the most modern amenities: channeled air conditioning, underfloor heating, home automation, etc. without giving up the Mediterranean style that fills every detail of the villa. The house has been designed according to the principles of bioclimatic architecture, in order to guarantee a minimum energy consumption with maximum comfort and well-being.
